Shamanism as a spiritual exploration of sexuality and acceptance of all its manifestations. Discovery of a physical, energetic and sexual Native American morphotype and its possible psychological correlation with our current lives. Opening up to models in order to free ourselves from them... Embrace your essence, find the wisdom of your fulfilment through meditation, dyads, body energy exercises, massages and guided breathing. We alternate between individual and collective explorations, and moments of sharing and reflection. The work, led by Laurence LALIN and Johary ANDRIAMAMPIONONA, takes place in a calm, safe and caring environment.
